

REPLY MADE BY DAUGHERTY

He Denies Telling Senator
He Had No Connection
With Morse

WASHINGTON, May 26.—Attorney General Daugherty, in a letter to Senator Watson, Republican, Indiana, read today in the senate at the latter's request, denies that he told the Indiana senator that he had no connection with the procuring of a pardon on Charles W. Morse, as stated by Senator Watson in the senate on May 2 when Senator Caraway, Democrat, Arkansas, opened his attack on the attorney general.

EVIDENTLY MISTAKEN
Mr. Daugherty said Senator Watson evidently had misinterpreted what had been said. He wrote that he remembered the general discussion of the Morse case with the senator and added:

"I certainly did not say to you that I had no connection with the Morse case."

The attorney general stated that he had no "disposition to deny" his connection with the case and added that he received about \$4000 from Thomas B. Felder, in connection with it, but that this sum was sufficient to pay only about half of the expenses.

DENIES MISUNDERSTANDING
Senator Caraway told the senate that there could be no question of misunderstanding; that Senator Watson either repeated what was told him, or he had misinterpreted the attorney general. Asserting that he did not believe there had been any misrepresentation by the Indiana senator, Mr. Caraway said another Republican senator had told him that the attorney general had made the same denial to him.

NO SHADOWING
Coinciding with the resumption Thursday by Senator Watson, Democrat, Georgia, of the discussion in the senate of the alleged connection of Attorney General Daugherty with the pardoning in 1912 of Charles W. Morse, a statement was issued at the department of justice on behalf of Mr. Daugherty, denying that secret service operatives ever had been, or were being used to shadow members of congress.

Warren F. Martin, special assistant and secretary to the attorney general, referring to a charge of such of secret service men as made in the senate by Senator Caraway, Democrat, Arkansas, said he could "say officially for the department of justice that anyone making such a statement is guilty of a malicious misstatement and untruth."

CABINET ATTACKED
Senator Watson also attacked other members of President Harding's cabinet, declaring that the executive "embarrassed" the senate at the outset of his administration by asking immediate confirmation of "Secretary Mellon, probably richer than John D. Rockefeller and who is holding office in violation of laws," Herbert Hoover, the Englishman, and Secretary Fall, who is reeking and dripping with Standard Oil scandal in Colombia, the Tea Pot Dome and in Mexico."

**M'CARTHY GOES TO
I. C. C. RATE HEARING**

SALT LAKE, May 26.—W. S. McCarthy, representing the intermediate rate association, which is representative of jobbers of western inland states, left today for Washington to appear before the interstate commerce commission June 1, when the application of the railroads for modification of the fourth section for the transportation act will be heard. The hearing will involve the long and short haul clause. Mr. McCarthy will contend that jobbers in the intermountain territory should not pay higher rates for goods sent here from the east than to the Pacific coast from the east.

REMOVAL CASES TO BE DROPPED

Treasury Intends Doing
Nothing Further in Job
Abolishment

WASHINGTON, May 26.—Secretary Mellon, after a conference with President Harding at the White House late Thursday announced that no further action would be taken by the treasury department in the case of A. B. Sumner, of Iowa, and C. C. Childs, of Ohio, who were removed by order of the secretary from the offices of deputy commissioner of internal revenue and supervisor of collectors, respectively, through the consolidation of their units.

Secretary Mellon said reports that Sumner and Childs would be reinstated were without basis. "So far as the treasury department is concerned," he added, "the entire matter is a closed issue."

Dispatches from the Pacific coast quoting Assistant Secretary of the Treasury Dover to the effect that if the removal of Sumner and Childs was a personal matter, he might "be heard from," when called to the attention of Mr. Mellon evoked a reply to the effect that "I fail to understand such remarks."

Secretary Mellon said further that Sumner and Childs were not appointees of Mr. Dover. He could not discuss, he said, any plans for a further reorganization of the internal revenue forces of the government.

"There may be some changes, of course," he added. "But I cannot at this time go into details. The matter was discussed with the president only incidentally."

BRITAIN GETS MOST OF RUSSIAN TRADE

MOSCOW, May 25.—Detailed reports of development of trade between Russia and the outside world since the beginning of 1920 have been published in the Soviet press, covering the period since Russia's first peace treaty was concluded with Estonia when the blockade against Russia was brought to an end. Chiefly due to lack of system and the chaotic conditions which existed during 1920, Russia exported but little in that time, the imports, however, being valued at 50,000,000 gold rubles.

But as soon as trade agencies and representations had gained a firm footing in London, Berlin, Stockholm and other industrial centers, an actual system became apparent in the foreign trade of Soviet Russia, all business being carried on under supervision of the people's commissar for foreign trade, L. B. Krassin.

In 1921 Russia imported goods valued at 248,000,000 gold rubles equivalent to \$124,000,000, chiefly coal, chemical and metal goods, foodstuffs and textiles. In the same year Russia exported goods valued at 20,000,000 gold rubles, chiefly flax, and other raw materials.

England took the lead in supplying Russia with its needs last year with Germany second. The deliveries consisted chiefly of agricultural requisites. America took third place, having supplied 16 per cent of the import goods, exclusive of relief supplies.

The Soviet press concludes that, owing to the exhausted condition of the country, it is scarcely considered possible to increase the export business during the next few years, although, says one paper, an improvement in the quality of the goods may well be expected.

MRS. CHAPLIN CAN REMAIN

WASHINGTON, May 26.—Mrs. Hannah Chaplin, mother of Charles Chaplin, the motion picture actor, may be allowed to remain in the United States for a temporary period as an alien seeking treatment for mental disorders, according to an opinion rendered to Secretary of Labor Davis today by the solicitor attached to the immigration bureau.

The opinion does not automatically permit Mrs. Chaplin to remain at Santa Monica, Cal., where she has been living for a year under expert medical care, but it allowed Secretary Davis to use administrative discretion. Mrs. Chaplin's legal representatives have been asked to furnish evidence that her treatment under American climatic conditions had been of physical and psychological values. Secretary Davis will make final determination of the matter after study of these expected reports.

BRIGHTON CASE GOES TO JURY

SALT LAKE, May 26.—The case of Gilbert L. Brighton, charged with the murder of Charles A. Faus, member of the city board of education, went to the jury at noon. Brighton, with Roy E. Donnell, and Angelina Wacaster, was arrested a few days after the crime. Donnell has already been sentenced to life imprisonment while Miss Wacaster's trial is scheduled to take place Monday.

AMERICAN COIN HAS ADVANTAGE IN CHILE

SANTIAGO, May 27.—American exports to Chile have not been burdened so heavily with the factor of exchange as those of Great Britain, says C. A. McQueen, commercial attaché to the United States embassy here. The exchange value of the dollar, in relation to the Chilean peso, advanced in the last year approximately 32 per cent while the pound sterling advanced about 50 per cent.

"The present disinclination of this market to purchase American goods," Mr. McQueen said, "is largely due to business stagnation because, with the reduced prices of products in the United States, articles from that country still are in an advantageous position as those of other nations with the possible exception of France and Germany."
